

INFOTSAV 2012

FOREX

Forex is the simulation of by far the largest financial market in the world that includes trading between central banks, currency speculators, multinational corporations, governments and other financial institutions. This game provides a platform where the players can convert virtual money from one currency to another. The player who has the maximum assets wins. The Foreign Exchange market exists whenever one currency is traded for another. It gives a real time experience of the "foreign exchange" provided with virtual money and real time data to get the invaluable hand on experience.

- First Prize : 4,000/-
- Second Prize : 2,000/-

Rules:

- *Only registered users at <http://www.infotsav.org/> can participate.*
- *A participant can make his/her another account only if his earlier account is freezed. In case it is found that the participant has created more than one user id he/she shall be disqualified. In case of any discrepancy organizers decisions will be final.*
- *There is only one round.*
- *In this round the participants have to trade with the virtual amount of \$ one lakh*
- *In case of tie, the organizer's decision will be final.*
- *Rank will be calculated after every hour.*
- *The top ten players (as according to the rank) will be scrutinized for any fraud or fake transactions. The Final Winners shall be then intimated through mail and a list will be put up on the website.*
