Job Bureau

...a real time official simulation

Get to use the world's latest technologies and software. It's time for you to experience the professional serene and achieve what you desire and are really capable of. Infotsav gives you a chance to get placed before the actual campus drive in a virtual world where you learn to be an efficient project leader and a skilled coder. The simulation takes you into the flock of assignments where you move ahead by gaining experience and money.

Prizes:

- *First Prize : 4000/-*
- *Second Prize : 2000/-*

Rules:

- *Only registered users at <http://www.infotsav.org/> can participate.*
- *As soon as you register, you become a freelancer/software engineer/project leader who gets paid for completing tasks of various companies. The user is virtually provided with a laptop of basic configuration with fully charged battery.*
- *The criteria for completing a task include your battery level and fulfilment of minimum requirements by a task which may include various software and hardware.*
- *The tasks are categorized into four levels.*
- *User will get paid for completing a task and gains experience associated with that task.*
- *The battery gets consumed in doing a task/job. If battery gets over, one needs to wait for some time to recharge the battery or buy a power booster for the laptop for instant recharge.*
- *User can upgrade his/her system by buying available packages (hardware and software).*
- *The basis of ranking is the "experience" gained by the user.*
- *There are three basic tasks kept for the user in case if he runs out of money. These tasks will not give him experience.*
- *There is only one round.*
- *Under any malicious practice found, the organizers decision will be bound and final.*

Timeline :

*From **1st Nov 2012** to **5th Nov 2012**.*
